CERTIFICATIONS

Google - Data Analytics
3/2024 to current

Scrum Alliance - Certified Scrum Product Owner
3/2024 to current

EXPERIENCE

Conductiv - User Experience Designer
San Francisco Bay Area, CA| 1/2023 to 1/2024
  - Led design for over five product lines within Conductiv's healthcare, supply chain platform. Solutions ranged from existing feature iterations to entirely new products which opened up new markets for Conductiv.
  - Significant contributor in cross-functional trio. Engaged in every stage of product development from user research to final implementation.

Serve Robotics - Product Designer
San Francisco Bay Area, CA| 2/2022 to 7/2022
  - Designed tools and interfaces used for autonomous robotic delivery. Adapted to a fast paced startup environment by quickly iterating on designs when needed and prototyping with engineers directly.
  - Immersed myself in the domain by conducting on-site usability testing with robot pilots and observing robotic deliveries taking place.

Transamerica - Intermediate Digital Designer
Denver, CO | 11/2020 to 2/2022
  - Spearheaded the design for the Agent Experience (AX) platform. Gained a deep understanding of the life insurance domain by conducting user research on my own and partnering with subject matter experts.
  - Contributing member of Transamerica's design system guild. Designed new components per needs across all the product suites.

GE Aviation - User Experience Designer
Detroit, MI | 9/2019 to 2/2020
  - Led the UX design for Digital Network Analytics (DNA), the most used application in the company's supply chain pillar. Designed for two critical features used on the application.
  - Served as the liaison between a co-located engineering team and a remote design team. Established meeting rhythms to keep all team members in the loop.

MENTORSHIP

CareerFoundry - UX Mentor
Remote | 6/2022 to current
  - Providing video feedback on assignments based upon defined rubric requirements. Hosting one on one video sessions with students to clarify their design questions. Advising students on industry best practices.

Chegg - UX Design Technical Expert
Remote | 3/2021 to 12/2021
  - Mentoring students one on one from three different UX Design bootcamp curricula. Grading assignments and providing feedback for improvement. Answering technical and career questions in office hours.
